FADE OUT

FADE UP (1' 21")

Ext: Hospital

DOCTOR WHO and BRIGADIER driving down road. They turn into the Hospital - past sign "WENLEY HOSPITAL".

As they are driving down the driveway, BAKER comes rushing out of the hospital in pyjamas and dressing gown. He is wild eyed and obviously delirious.

He staggers and falls. They stop the car and rush over to him. DOCTOR turns him - feels his pulse, heart etc. He sees his face is discoloured and then notices the mark on his arm - now inflamed.

BRIGADIER: Is he dead?

DOCTOR WHO: Yes, the first one.

DOCTOR WHO and BRIGADIER look up at DOCTOR GREEN and NURSE. DOCTOR WHO and the BRIGADIER move away from BAKER's body, and come up to DOCTOR GREEN, who tries to go to BAKER.

BRIGADIER: Keep back!

DOCTOR GREEN: What? Look, what's going on here. This man is ill.

DOCTOR WHO: This man is dead. He died of an alien disease.

DOCTOR GREEN: Alien?

THE BRIGADIER draws his revolver.

BRIGADIER: Inside!

It dawns on DOCTOR GREEN
and NURSE that the
BRIGADIER means business,
and they hurry back inside.

DOCTOR WHO: You'd better
quarantine the place. I must get
back to the laboratory.

BRIGADIER takes up mike from
packet as DOCTOR WHO runs
back to his car and drives
off.

BRIGADIER: I'll stay here -
(INTO MIKE) UNIT-leader to base.
I want every available man to
surround Wenley Hospital. No-one's
to enter or leave. Over and out.
